Ontario Institute for Cancer Research Board of Directors
Call for Applicants: Membership on the Ontario Cancer Research Ethics Board
Governance Committee

The [Ontario Institute for Cancer Research](#) (OICR) is a collaborative, not-for-profit research institute focused on accelerating the translation of new cancer research discoveries to patients around the world, while maximizing the economic benefit of this research for the people of Ontario.

The Board of Directors of OICR **is seeking candidates for a volunteer position on the [Ontario Cancer Research Ethics Board \(OCREB\) Governance Committee](#)**. While OCREB is a program of OICR, it is an independent body operating at arm's length from administrative, programmatic, and research structures within OICR. OCREB is accountable to the Board of Directors of OICR through the OICR Governance Committee. The purpose of the OCREB Governance Committee is to ensure the independence of OCREB's decisions and the quality of the ethics reviews (see Terms of Reference appended).

Currently the OCREB Governance Committee has an opening for an individual **with expertise in Governance and Performance Management**. An interest or experience in cancer research, research ethics and human research protection, or not-for-profit organizations would be an asset.

Research Ethics Boards (REBs) are independent, multi-disciplinary committees that review the ethical acceptability of research involving humans. The REB's role is to safeguard the rights and welfare of the individuals who volunteer to participate in research, by ensuring that the study sponsor and the researchers have adequately considered and applied the required ethical principles into the design and conduct of the research.

As a central, expert oncology REB serving the hospitals/cancer centres in Ontario that conduct oncology clinical trials, OCREB has radically changed the research ethics environment for multi-centre cancer trials in Ontario. OCREB's centralized model not only provides a robust ethical focus on oncology research, but also streamlines the review process, minimizes redundancy, promotes consistency, and saves the time and cost of having the study reviewed by an REB at every participating institution/study site. Since 2004, OCREB has been working with researchers, institutions and sponsors to safeguard the rights and welfare of research participants in Ontario, while advancing ethically sound cancer research.

How to Apply

If you are interested in applying to serve as a member of the OCREB Governance Committee, please email Janet Manzo (janet.manzo@oicr.on.ca) with your CV, along with a letter describing your interest and your relevant competencies and experience. **Applications will be accepted until end of day September 14, 2018**, with an appointment target of early 2019.
